Brights Disease And Diabetes

We desire to place in the hands of those afflicted with Brights Disease and Diabetes a 36-page pamphlet that is saving human lives. It is not an ordinary pamphlet, such as is commonly used to advertise medicines, but is principally made up of reports of scientifically conducted tests in a large variety of cases, showing 87 per cent of recoveries. In these hitherto incurable diseases.

The specifics employed in these tests are known as the Fulton Compounds and the results obtained prove conclusively that the dreaded diseases so long fatal the deaths from Brights Disease alone are appalling, over 100,000 a year, starting as kidney troubles have at last yielded to medical science. The pamphlet is free. Write to the John J. Fulton Co., 460 Washington street, San Francisco, Cal.

When to suspect Brights Disease:—Puff ankles or hands; weakness without apparent cause; kidney trouble after third month; frequent urination (may show sediment or cloudy on standing); fading vision; day drowsiness—one or more of these.
